

# **HEALING OF ALOPECIA**

**—The testimony of Konstantinos Kapetanou**

September, 2010

When I was 14 years old, I started losing my hair, eyebrows, and eyelashes. The doctor said it was due to stress, and not to worry. A few years passed and there was more hair loss. I started seeing more doctors and I had needle injections in my eyebrows. Nothing worked. I tried covering my head by wearing hats. I even went to a men's hair club and I wore a hair piece. They would order me a piece and glue it on the back of my head. It was very expensive but I wanted hair. The doctor said my hair loss was due to alopecia at this time, and the hair wouldn't grow back. In 2007 I started going to Saint Nektarios Monastery in Roscoe, NY. I told Geronda Joseph my problem and he blessed my head with the holy relics of Saint Nektarios. About 8 months passed by and during that time I slowly noticed my hair growing back. I decided to let the hair grow in and to stop wearing a hair piece. The owners told me to cut my hair, and to order more hair pieces, but I didn't listen to them. I let my hair grow back. In a few months, all my hair grew back. Today I have full hair and haven't had any hair loss again. Thanks to Saint Nektarios and the prayers of Geronda Joseph.
