

# **HEALING OF CERVICAL CANCER**

**—Testimony from an anonymous pilgrim—**

Due to multiple symptoms from February to April of 2023, I had biopsies and scans which then revealed to be what appeared a pelvic mass. My brother in law who is a doctor was concerned with the reports, and with his contacts I was referred to the chief of NYC hospital who was the final doctor I met, and who then confirmed I needed surgery to remove what he was seeing, because the results were showing 98% chance of a mass that had metastasized.

During the days of waiting for test results and surgery my sister introduced me to an angel, Maria. Maria introduced me to Saint Nektarios, already being a big believer in Jesus Christ, praying was my peace. Prior to surgery I visited Saint Nektarios Monastery and shared with a couple of monks as to why I was there. Father Stephanos did a prayer with the relic and special cross on me, and I felt instant warmth. I was now days away from surgery. I put together a small bundle of prayers, icons of Jesus, Saint Nektarios and Mother Mary to take into surgery with me, all of whom got me through the dark weeks of waiting.

As I went into surgery my husband and family were waiting in Saint Patrick Cathedral in New York City. After 2 hours, the nurse called and said I was in surgery and the doctor will call to keep you informed. Within 10 minutes my husband's phone rang again, and it was now the doctor. He said the words we have all been praying for: "She has NO CANCER. I tested and checked everywhere!" Surgery ended early; after a few hours I opened my eyes and was told about my miracle. My prayers were answered. I am forever grateful for the priests, intercessors and family who were along my journey who helped me pray and get through what was the most challenging weeks of my life. Forever grateful for a continued healthy beautiful life.
