

# **HEALING OF A CYST**

**—The testimony of Michael Kostakis—**

January 2020

I developed a lump behind my knee. I went to Dr. James Telonis, who after examining it scheduled an appointment to excise it a month later. After the initial appointment, I started placing holy oil from Saint Nektarios Monastery on it every day. When I showed up for the appointment to do the excision, Dr. Telonis was ready for the procedure, but he noticed that the lump was no longer there. Then I told him, “I’ve been using St. Nektarios’ oil.” He did not do the procedure, and the lump has never come back.
