

HEALING OF THE PROSTATE BY ST. NEKTARIOS

The testimony of Nicholas Kokokiris from Samos, Greece
from the book *Nothing is Incurable for St. Nektarios*

Four years ago, I began to suffer tremendously on account of my prostate. I started visiting many doctors and taking many pills, but my situation was worsening instead of improving. Finally, I ended up in Athens, where the doctors told me that if I was to have surgery, I would die during the procedure because of my advanced age and frail health condition. I was experiencing unbearable pain, and they had to drain my urine using a device.

This year, I was in great danger at the beginning of Great Lent. My relative Eupraxia Karavasili found out about my condition, and she came to visit me. She crossed me with holy oil from Saint Nektarios and with his icon three times, and the miracle took place! While I was sleeping, I saw a monk wearing a *skoufo* and dressed in white clothing who approached me and said, "I am going to operate on you. You will not feel any pain, and I will heal you." He laid me down, and from this position I could see his hands as they operated on me. In a short while he said, "Now you are completely well," and then he vanished. Indeed, I did not feel the slightest pain, and ever since that moment I am well. I started to urinate normally, and I am in good health.

Thousands of praises are due to our Christ and Panagia for sending Saint Nektarios to heal me. I will remember him and thank him for the remainder of my life.
